Inhalte		
<p>The fully integrated obligatory term at Peking University is coordinated with the language teaching at the home institutions and guarantees an intensification of language training and an activation of language competencies. The interaction with further native speakers as teachers and in the Chinese environment helps to put all fields of language knowledge, such as oral expression or reading and writing abilities on a broad basis. Specialized teaching material focuses on the social, regional, cultural and economic context of Peking. Students continue to extend their systematic language training arriving at a vocabulary based on an active knowledge of ca. 1200 Chinese characters. Students learn to distinguish between relevant active and passive vocabulary. Text production and oral presentations are trained beyond the text book content and include complex compound sentences.</p>
