<b>Inhalte</b>		
<p>Peking University's Institute for Sociology and Anthropology is among the leading institutes in social sciences in the PRC. Students, during their term at ECLC, attend a lecture of their choice in Chinese language held by a university teacher of this institute on one major aspect of China's contemporary society, such as social stratification or social mobility, and based on the present situation and recent developments. Thus the students get familiarized with official Chinese positions on contemporary societal issues. Since attending a lecture in Chinese language along with Chinese students and regardless of their limited language skills is a considerable challenge to most students, they are offered additional support through a tutorial that reviews and further deepens the contents of each lecture and pays special attention to the systematic development of the required specific terminology.</p>		
<b>Qualifikationsziele / Kompetenzen</b>		
<p>Students further increase their real-time listening comprehension skills, and in particular their abilities in following and appropriately understanding a lecture in Chinese language. They continuously develop their Chinese vocabulary and terminology on issues of the contemporary society. They learn to reflect on the different classroom experience and to deal with official Chinese views on political issues appropriately and respectfully. They further enhance their learning progress through the support from a voluntary tutorial.</p>
