<b>Contents</b>		
<p>The students get to know various aspects and topics of an intercultural society and are faced with different requirements of a global society and working environment in the context of different cultures and cultural standards. A strong emphasis is put on the diversity of values and lifestyles, different ideologies and patterns of orientation as well as the different ways of thinking and living. The topics are always processed in consideration of an intercultural perspective.</p>		
<b>Intended learning outcomes</b>		
<p>By analysing the diversity of cultures and cultural interpretive patterns, the students gain basic knowledge of scientifically sound approaches to intercultural learning. Practical exercises and role plays enable the students to transfer their knowledge to real situations to strengthen both their ability to critically reflect their own point of view as well as their social and personal competence. The primary goal is to acquire intercultural key competencies.</p>
