An opportunity for students seeking specialisation in moral theology to gain an insight into fundamental topics in theological ethics (e. g. biblical ethics, conscience, models for the constitution and justification of norms, freedom, guilt and sin, faith and action) as well as selected topics with regard to individual and social responsibility (e. g. problems in medical ethics or sexual and relational ethics).

Intended learning outcomes

At the end of the course, students will have become familiar with advanced topics and current problems in moral theology. They will also be familiar with the principles of argumentation in theological ethics and will have gained an insight into how models of justification in theological ethics are applied to specific problems of responsibility. They will be able to critically reflect upon issues currently faced by society and take their own well-founded position on them.
