Contents

What sets the Catholic theology programme offered by the University of Würzburg apart from programmes offered by other institutions is that it offers deeper insights into regional and eastern church history and also covers topics in ecumenical theology and missiology. This module includes courses in the areas of eastern church history, ecumenical church history, and missiology that students are required to take in the focus area (cf. Section 5 Subsection 8 Sentence 3 academic and examination regulations). The topics covered in the courses vary from semester to semester. See the course catalogue for the current semester for more information.

Intended learning outcomes

At the end of the module, students will have explored additional topics in theology that are not covered in Catholic theology programmes offered by other institutions: Having gained deeper insights into regional church history, students will be able to interrelate regional with eastern church history as well as to look at key issues, including but not limited to issues in missiology, and their impact - past and present - through a comparative lens.
