Contents		
<p>The course deals with contract law in the light of digitalization. It will focus on the drafting of individual contracts and the design of general terms and conditions, as well as the analysis of specific contracts. This includes contracts with providers in particular. Additionally, the course will particularly take a look on consumer protection in e-commerce and contract law in the IT sector, namely the specifics of contracts on data.</p>		
Intended learning outcomes		
<p>The students are familiar with the main legal problems of consumer protection, electronic commerce and the drafting of various contract types in the field of information technologies.</p>
