### Module title

**Immunology I**

**Abbreviation**

03-4S1IM-092-m01

### Module coordinator

holder of the Professorship of Immunogenetics

### Module offered by

Faculty of Medicine

### ECTS

5

### Method of grading

Only after succ. compl. of module(s)

### Numerical grade

--

### Duration

1 semester

### Module level

undergraduate

### Other prerequisites

--

## Contents

This module gives an introduction to immunology. The following questions will be addressed: How does the body recognise and eliminate pathogens and tumour cells? How can the immune system damage its own body (allergies, autoimmunity)? Organs, cells and molecules of the immune system will be presented with an emphasis on genetic and molecular mechanisms of recognition and elimination of foreign substances by the immune system. The most important immunological techniques will be introduced and applied.

## Intended learning outcomes

The students acquire a practical knowledge of cellular and molecular techniques for the analysis of the immune system. They are familiar with the mechanisms of self and non-self discrimination by the adaptive and innate immune systems. They acquire a fundamental knowledge of lymphocyte development as well as major immune effector cell functions and molecules.

## Courses

This module comprises 2 module components. Information on courses will be listed separately for each module component.

- **03-4S1IM-1IM-092**: Introduction into Immunology (Lecture and Practice)
  - 2 ECTS, Method of grading: numerical grade
  - written examination (30 minutes)
  - Language of assessment: German, English where required

- **03-4S1IM-2IM-092**: Immunology (Laboratory Course)
  - 3 ECTS, Method of grading: (not) successfully completed
  - presentation (approx. 20 to 30 minutes)
  - Language of assessment: German, English where required

## Method of assessment

Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

**Assessment in module component 03-4S1IM-1IM-092**: Introduction into Immunology (Lecture and Practice) Introduction into Immunology (Lecture and Practice)

- 2 ECTS, Method of grading: numerical grade
- written examination (30 minutes)
- Language of assessment: German, English where required

**Assessment in module component 03-4S1IM-2IM-092**: Immunology (Laboratory Course)

- 3 ECTS, Method of grading: (not) successfully completed
- presentation (approx. 20 to 30 minutes)
- Language of assessment: German, English where required

## Allocation of places

--

## Additional information

--

**Referred to in LPO I** (examination regulations for teaching-degree programmes)
