| <b>Module title</b>  |                              | <b>Abbreviation</b>  |
| Laboratory Course in Biomedical Research 3   |                              | 03-98-FSQ-F2PR3-152-m01  |
| <b>Module coordinator</b>  |                              | <b>Module offered by</b>   |
| Dean of Studies Biomedizin (Biomedicine)   |                              | Faculty of Medicine  |
| <b>ECTS</b>  | <b>Method of grading</b>     | <b>Only after succ. compl. of module(s)</b>                            |
| 5  | (not) successfully completed | --   |
| <b>Duration</b>  | <b>Module level</b>          | <b>Other prerequisites</b>   |
| 1 semester   | undergraduate                | May be combined neither with 03-98-FSQ-F2PR1 nor with 03-98-FSQ-F2PR2. |
| <b>Contents</b>  |                              |  |
| Students spend 4 weeks working on a small, well-defined scientific lab project at an internal or external lab.   |                              |  |
| <b>Intended learning outcomes</b>  |                              |  |
| Students reinforce previously acquired lab skills, acquire new lab techniques and learn how to apply theoretical knowledge under supervision in the lab. Students gain expertise in the analysis and documentation presentation of raw data. The students are able to link their work to the relevant literature and to derive first questions for their own work from it. |                              |  |
| <b>Courses</b> (type, number of weekly contact hours, language – if other than German)   |                              |  |
| P (8)  |                              |  |
| <b>Method of assessment</b> (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)   |                              |  |
| Log (10 to 15 pages) and talk (approx. 10 minutes)   |                              |  |
| <b>Allocation of places</b>  |                              |  |
| --   |                              |  |
| <b>Additional information</b>  |                              |  |
| Additional information on module duration: 4 weeks, full time.   |                              |  |
| <b>Workload</b>  |                              |  |
| 150 h  |                              |  |
| <b>Teaching cycle</b>  |                              |  |
