

Module title		Abbreviation
Concepts in Immunology		03-98-ImmK-182-m01
Module coordinator		Module offered by
Institute of Virology and Immunobiology		Faculty of Medicine
ECTS	Method of grading	Only after succ. compl. of module(s)
5	numerical grade	03-98-MVI
Duration	Module level	Other prerequisites
1 semester	graduate	--
Contents		
Becoming familiar with and discussion of current immunological concepts and research findings as well as their importance in basic and clinical research and clinical practice.		
Intended learning outcomes		
Students who have successfully completed this module will have a basic understanding of current concepts related to the structure and function of the immune system. Furthermore, students learn to discuss current experimental approaches and their results in the context of the scientific field through oral presentation of current scientific literature.		
Courses (type, number of weekly contact hours, language – if other than German)		
V (1) + S (2.5) Module taught in: German / English Course type: alternatively S instead of Ü		
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
a) written examination (45 to 90 minutes) or b) log (10 to 20 pages) Language of assessment: German and/or English		
Allocation of places		
Biomedizin (Biomedicine) Bachelor's: 16 places.		
Additional information
