### Module title

**Immunology 2 BM**

**Abbreviation**

03-98-ImmM2-152-m01

### Module coordinator

holder of the Professorship of Immunogenetics

### Module offered by

Faculty of Medicine

### Contents

Recent progress in molecular and cellular immunology. Deeper insights into selected immunology chapters, such as autoimmunity and immune modulation, development of the immune system, immunogenetics, evolution, infection immunology, and more. This incorporates common literature readings, presentations and tests on selected immunology book chapters and recent original literature.

### Intended learning outcomes

Students are able to understand current problems in immunology and to discuss these in detail.

### Courses

(type, number of weekly contact hours, language — if other than German)

S (2)

Module taught in: German/English

### Method of assessment

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

a) written examination (30 to 60 minutes) or b) oral examination of one candidate each (30 to 60 minutes) or c) presentation (20 to 45 minutes)

Students will be informed about the method, length and scope of the assessment prior to the course.

Assessment offered: Summer semester only

Language of assessment: German and/or English

### Allocation of places

--

### Additional information

--

### Referred to in LPO I

(examination regulations for teaching-degree programmes)
