<b>Contents</b>		
Conduct a defined and focused research project under supervision within a limited time frame and its presentation in a written thesis.		
<b>Intended learning outcomes</b>		
Students demonstrate their ability to solve a defined problem within a chosen area within a given time frame by applying scientific research methods. Under supervision, independent work and integration of own ideas are encouraged. In the written thesis they show that they are able to formulate a defined aim, explain the applied methodology in a reproducible manner, evaluate and present results according to scientific standards, subject them to a critical evaluation, place them in the context of the known literature and derive further work from them.
