Module coordinator
holder of the Chair of Experimental Biomedicine

Module offered by
Faculty of Medicine

ECTS | Method of grading | Only after succ. compl. of module(s) |
---|---|---|
10 | numerical grade | -- |

Duration | Module level | Other prerequisites |
---|---|---|
| | graduate | -- |

Contents
Students spend 4 to 6 weeks working on their own small, well-defined scientific lab project in the area of cardiovascular biology and present the results of the laboratory project at the Institute seminar.

Intended learning outcomes
Participating in clinically-oriented research projects, students gain initial hands-on experience. They reinforce previously acquired lab skills, acquire new lab techniques, and learn how to apply theoretical knowledge in the lab. Students gain expertise in the analysis and presentation of raw data.

Courses (type, number of weekly contact hours, language — if other than German)
P (10)
Module taught in: German/English

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)
practical assignment with log (approx. 10 to 20 pages) and oral examination (approx. 15 to 30 minutes)
Language of assessment: German and/or English

Allocation of places
