### Module title
Seminar Cardiovascular Biology

### Abbreviation
03-EM-Sem4-132-m01

### Module coordinator
holder of the Chair of Experimental Biomedicine

### Module offered by
Faculty of Medicine

### ECTS
5

### Method of grading
Numerical grade

### Only after succ. compl. of module(s)
--

### Duration
1 semester

### Module level
Graduate

### Other prerequisites
--

### Contents
Semester-long, integrated scientific seminar in small groups with exercise, discussion and presentations/talks by students, among others on current literature and/or selected special lectures covering the field of cardiovascular biology.

### Intended learning outcomes
Advanced insights into the focuses chosen for the in-depth scientific study of the selected specialist area. Students are able to evaluate relevant specific information, to present it in a professional manner and to discuss it with others. Students acquire a critical understanding of the most important theories, principles and methods of individual issues within the subject.

### Courses
**Type, number of weekly contact hours, language — if other than German**

S (no information on SWS (weekly contact hours) and course language available)

### Method of assessment
**Type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus**

Presentation (approx. 15 to 20 minutes) and written summary (approx. 1 page)

### Allocation of places
--

### Additional information
--

### Referred to in LPO I
(examination regulations for teaching-degree programmes)

--

### Module appears in
Master's degree (1 major) Experimental medicine (2013)
