### Module title
Seminar Experimental Medical Research Methods

### Abbreviation
03-EM-Sem7-132-m01

### Module coordinator
Institute of Hygiene and Microbiology

### Module offered by
Faculty of Medicine

### ECTS
5

### Method of grading
numerical grade

### Only after succ. compl. of module(s)
--

### Duration
1 semester

### Module level
graduate

### Other prerequisites
--

### Contents
In this module, current problems in the research area of experimental medicine are discussed and specific solutions are taught.

### Intended learning outcomes
Students have developed the ability to approach, analyse and critically interpret current problems in experimental medicine, taking into account current literature.

### Courses
(type, number of weekly contact hours, language — if other than German)

S (no information on SWS (weekly contact hours) and course language available)

### Method of assessment
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

presentation (approx. 15 to 20 minutes) and written summary (approx. 1 page)

Language of assessment: German, English

### Allocation of places
--

### Additional information
--

### Referred to in LPO I
(examination regulations for teaching-degree programmes)
