Module title: Clinical Neurobiology

Abbreviation: 03-MLSCN-152-m01

Module coordinator: Dean of the Faculty of Biology

Module offered by: Faculty of Medicine

ECTS: 3

Method of grading: Only after successfully completed module(s)

Duration: 1 semester

Module level: Graduate

Other prerequisites: --

Contents:
Introduction to the anatomy, morphology, cell biology and biophysics of the brain and the sensory and motor systems as the foundation for the understanding of relevant diseases.

Intended learning outcomes:
Students can relate structure-function aspects of neurons and their sensory and effector cells to relevant diseases and are thus able to formulate new hypotheses. Students are prepared for independent research in the field of clinical neurobiology.

Courses:
(type, number of weekly contact hours, language — if other than German)
V (3)

Method of assessment:
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

Students will be informed about the method, length and scope of the assessment prior to the course. Usually, one of the following options will be chosen: a) written examination (30 to 60 minutes, including multiple choice questions) or b) log (10 to 30 pages) or c) oral examination of one candidate each (30 to 60 minutes) or d) oral examination in groups of up to 3 candidates (30 to 60 minutes) or e) presentation (20 to 45 minutes)

Language of assessment: English

Allocation of places:
--

Additional information:
--

Referred to in LPO I (examination regulations for teaching-degree programmes)
