

<b>Module title</b>		<b>Abbreviation</b>
Forensic medicine for biologists		03-REM-Bio-161-m01
<b>Module coordinator</b>		<b>Module offered by</b>
Prof. Dr. Bohnert		Faculty of Medicine
<b>ECTS</b>	<b>Method of grading</b>	<b>Only after succ. compl. of module(s)</b>
5	numerical grade	--
<b>Duration</b>	<b>Module level</b>	<b>Other prerequisites</b>
1 semester	undergraduate	--
<b>Contents</b>		
<p>The lecture discusses key aspects of forensic medicine in a manner that is appropriate for biology students: Thanatology (death, post mortem changes, signs of death). Forensic traumatology (blunt force, sharp force, bullet wounds, asphyxia, drowning, thermal injuries, signs of injury vitality, causes of death). Clinical forensic medicine (physical assault, domestic violence, sexual offences, child abuse). Medical criminalistics (autopsy, crime scenes and forensic evidence, bloodstain pattern analysis, manners of death). Forensic alcohol toxicology (alcohol kinetics, effects of alcohol, fitness to drive, criminal responsibility). Forensic toxicology (types and identification of toxic substances). Forensic genetics (evidence analysis, family relationship testing).</p>		
<b>Intended learning outcomes</b>		
Students are able to discuss key aspects of forensic medicine and are familiar with the legal aspects of forensic medicine.		
<b>Courses</b> (type, number of weekly contact hours, language — if other than German)		
V (2)		
<b>Method of assessment</b> (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)		
written examination (approx. 45 to 60 minutes)		
<b>Allocation of places</b>
