chairperson of examination committee		Faculty of Medicine
<b>ECTS</b>	<b>Method of grading</b>	<b>Only after succ. compl. of module(s)</b>
25	numerical grade	--
<b>Duration</b>	<b>Module level</b>	<b>Other prerequisites</b>
1 semester	graduate	--
<b>Contents</b>		
Students conduct a scientific research project with the help of appropriate methods according to current scientific practice. The work is documented and discussed in a thesis and it is defended in a final colloquium.		
<b>Intended learning outcomes</b>		
Students are qualified to independently carry out scientific work according to the rules of good scientific practice. They are competent to document and to adjust their research and to interpret their findings in a larger context. Students are able to defend their work in front of a professional audience.		
<b>Courses</b> (type, number of weekly contact hours, language – if other than German)		
A (0)		
<b>Method of assessment</b> (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
Master's thesis (approx. 30 to 60 pages) Language of assessment: English		
<b>Allocation of places</b>
