Contents

Students get an intense training in at least two different methods from different fields of neurosciences.

Intended learning outcomes

Students have reinforced previously acquired lab skills, acquired new lab techniques and learned how to apply theoretical knowledge in the lab. Students have gained expertise in the analysis and presentation of raw data.

Courses (type, number of weekly contact hours, language — if other than German)

P (2)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

a) log (approx. 10 to 30 pages) or b) oral examination in groups of up to 3 candidates (approx. 30 to 60 minutes)

Allocation of places

--

Additional information

--

Referred to in LPO I (examination regulations for teaching-degree programmes)

--

Module appears in
