---|---
Masterthesis in Translational Neuroscience | 03-TN-MST-152-m01

Module coordinator | Module offered by
programme coordinator | Faculty of Medicine

ECTS | Method of grading | Only after succ. compl. of module(s)
---|---|---
25 | numerical grade | --

Duration | Module level | Other prerequisites
---|---|---
graduate | -- | --

Contents

The investigation of a current scientific topic using modern methods and technologies. The documentation of the research results in a written thesis, and an oral examination.

Intended learning outcomes

Students are able to independently plan and execute a scientific research project. They are able to collect, present and interpret raw data according to international standards of good scientific conduct. They are able to summarise their data in a written paper according to scientific rules and standards. Students are able to critically discuss and defend their experiment plan, results and interpretations in the context of current publications in their field. They have acquired a broad expertise in their field of study as well as in related fields.

Courses (type, number of weekly contact hours, language — if other than German)

No courses assigned to module

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

Master's thesis (50 to 100 pages)

Allocation of places
