**Duration**  
1 semester

**Module level**  
graduate

**Other prerequisites**  
--

**Contents**
The literature seminar is based on fundamental literature on lecture-relevant topics to document the experiments underlying our present knowledge in neurobiology.

**Intended learning outcomes**
The students will learn to critically read scientific publications in the field of neurobiology and will be trained in the ability to extract relevant information from the original literature.

**Courses**
(type, number of weekly contact hours, language — if other than German)

| S (2) |

**Method of assessment**
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

e) presentation (20 to 45 minutes)

**Allocation of places**
--

**Additional information**
--

**Referred to in LPO I**
(examination regulations for teaching-degree programmes)
--

**Module appears in**
Master’s degree (1 major) Translational Neuroscience (2015)
Master’s degree (1 major) Translational Neuroscience (2017)
Master’s degree (1 major) Translational Neuroscience (2018)
Supplementary course Translational Neuroscience (2018)
