The module "Clinical Neurobiology 2: Trend-setting and current findings in neurobiology" is offered by the Faculty of Medicine. The module is coordinated by the holder of the Chair of Clinical Neurobiology. It is worth 5 ECTS credits and requires successful completion of other modules. The module is at the graduate level and has no other prerequisites.

**Contents**

The literature seminar is based on fundamental literature on lecture-relevant topics to document the experiments underlying our present knowledge in neurobiology.

**Intended learning outcomes**

The students will learn to critically read scientific publications in the field of neurobiology and will be trained in the ability to extract relevant information from the original literature.

**Courses**

S (2)

**Method of assessment**

Presentation (20 to 45 minutes)

**Allocation of places**
