

Module title		Abbreviation
Current findings in psychiatric neurosciences		03-TN-PSYT2-142-m01
Module coordinator		Module offered by
University Hospital, Department of Psychiatry, Psychosomatics and Psychotherapy		Faculty of Medicine
ECTS	Method of grading	Only after succ. compl. of module(s)
5	(not) successfully completed	--
Duration	Module level	Other prerequisites
1 semester	graduate	--
Contents		
The literature seminar is based on fundamental literature on lecture-relevant topics to document the experiments underlying our present knowledge in neuropsychiatric diseases.		
Intended learning outcomes		
Students will acquire a theoretical understanding of how methods in molecular biology work and will learn how to publish scientific results in the field of neurobiology/neuropsychiatry.		
Courses (type, number of weekly contact hours, language – if other than German)		
S (no information on SWS (weekly contact hours) and course language available)		
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
presentation (20 to 45 minutes) Language of assessment: English		
Allocation of places
