Duration | Module level | Other prerequisites
1 semester | graduate | --

Contents
The literature seminar is based on fundamental literature on lecture-relevant topics to document the experiments underlying our present knowledge in neuropsychiatric diseases.

Intended learning outcomes
Students will acquire a theoretical understanding of how methods in molecular biology work and will learn how to publish scientific results in the field of neurobiology/neuropsychiatry.

Courses (type, number of weekly contact hours, language — if other than German)
S (2)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)
e) presentation (20 to 45 minutes)

Allocation of places
--

Additional information
--

Referred to in LPO I (examination regulations for teaching-degree programmes)
