| <p>The module offers an overview of the cultural history of West Asia based on archaeological sources; this may be supplemented exemplarily by a thematic focus on one or several periods. The individual types of artefacts and monuments are presented in their geographical and archaeological context, and their development presented diachronically. The findings of central ancient Near Eastern sites are presented side by side with the most important archaeological landscapes. In addition, archaeological methods and tools for dating, evaluating, and systematising finds are presented, and basic archaeological terminology is explained.</p> | | |

They can critically discuss diachronic developments and have knowledge of archaeological methods and the basic technical terminology.</p> | | |
