Contents

The module gives a comprehensive overview of the archaeology of a region or landscape of the ancient Near East, such as Anatolia, Assyria, Babylonia, Elam, Northern Syria etc. The geographic characteristics and socio-economic conditions of the landscape as well as the diachronic development of the region will be portrayed with regard to the most important cities and settlements. In addition, the most important individual finds and find assemblages as well as the current archaeological issues concerned with the region will be discussed.

Intended learning outcomes

The student will acquire a comprehensive overview of one region (landscape) of the ancient Near East. He/she will acquire detailed knowledge about the diachronic development of the region, its major sites as well as important finds and find assemblages. He/she will be able to identify current archaeological issues concerned with the region with regard to specific sites or finds.
