### Contents
Beyond the module 04-ÄG-Kul1 and 04-ÄG-Kul2, the course offers the possibility to participate, according to the personal focus, in a module/course of Egyptology or other archaeological disciplines of the JMU. Of course, the admission requirements of the particular courses have to be taken into account. Due to this module Egyptian skills can be consolidated, as the contents of the modules are not identical every year, even if the module titles remain the same. Or students have the possibility to broaden their horizon to further Archaeology, as far as it is not already covered by the minor field of study.

### Intended learning outcomes
Students have an overview of facts, research issues and technical literature concerning the Egyptian history of art. They acquire monumental skills and the ability to critically regard the technical literature. They are familiar with the stylised development of Egyptian art in its fundamental principles. They are able to correctly interpret the most important iconographic features of Egyptian art.
