<b>Contents</b>		
Fundamental knowledge of digitalisation and programming.		
<b>Intended learning outcomes</b>		
Students have gained an overview of digitisation technologies and are able to evaluate the quality of image and metadata with regard to the need for post-processing. They know what hardware, software, staff resources, and organisational expertise are required for a digitisation project and are aware of the costs one will incur throughout such a project. In addition, students master the foundations of algorithmic processing.
