<p>The tutorial deals with the practise of writing: How do I urge a good argument? How far does a smart wording distinguish from an awkward one? When does a sentence is not only correct, but also nice and smart? What do you need to know if the intelligibility of a text should be ensured? How does a text receives argumentative density and rhetorical subtlety? The writing will exemplarily be practised on subjects that are relevant to the discipline, for example: How a recension about a subject book is written, how is the discussion of an evening of theatre or a literary novelty is written?</p>
