Contents		
Application of ideas, approaches and methods of a teaching sub-discipline (linguistic or literature/media teaching incl. children and youth literature) including subject-specific contents on scholastic practise; Consolidation and expansion of conceptual and practical teaching know-how including a critical reflection of teaching key ideas; Consolidation of the transition between educational institutions and the orientation of teaching subjects as well as methodical ideas; Theory-based, practice-oriented analysis of a study area of German classes.		
Intended learning outcomes		
Based on the knowledge that has been acquired in the basis module, students consolidate their professional skills in the sub-discipline didactics (linguistic or literature and media didactics). The focus will be on the correlation of theoretical concepts and technical as well as subject-specific constructs with a real lesson that is lesson plan compliant and meets current requirements. Regarding the issue self-competence, students will work out different role segments of the teaching profession (e.g. short presentation, textualisation of planning decisions, analysis of teaching objects, types of presentation, moderation). Students acquire a sub-discipline didactic context and also the know-how, which is embedded in theory and practical references, in a proactive as well as reflective way.
