**Contents**

Ethnography of Everyday Cultures addresses selected topics of human everyday cultures and spheres of life and their ethnographic and cultural analytical research. In a multi-day excursion in a specific field of research, students address questions and collect empirical data. This course allows exercises in research topics, enables students to address and process methodical alternatives and to evaluate and interpret field research and the collected data.

**Intended learning outcomes**

Participants are able to select a field of research, formulate questions, choose methods of approach and utilize these in field research. Moreover, participants are able to evaluate and interpret collected data and record in written form.
