Contents

This seminar offers fundamental insight into the broad forms of research methods in European Ethnology. Students attain knowledge of theories and applications of ethnography and the analysis of cultures, qualitative research of societies, historical research or visual anthropology. In presentations, group work and practical exercises students attain a basic knowledge of research in current and historical everyday life in the field of cultural science.

Intended learning outcomes

Students possess skills of research methods in European Ethnology and can evaluate the suitability of the different methods to respond to various questions and apply various research methods.
