Contents		
<p>The module covers central concepts and methods in the field of phonology, morphology, syntax, lexicology, semantics and pragmatics as well as their application to the French. Central issues and methods of historical linguistics as well as important structural elements of the French language and Romance Languages in general will be covered, too. Students will learn about the most important linguistic theories. They will acquire central techniques of the academic work (information research as well as preparation and presentation of information) concerning the Romance linguistics.</p>		
Intended learning outcomes		
<p>When the module has been successfully completed, students are acquainted with basic knowledge of French and Romance linguistics. They are able to apply the most important linguistic description terms and methods to the French language. Students are familiar with basic techniques of scientific work in the area of Romance linguistics.</p>
