

Module description

Module title					Abbreviation
Land Surface Dynamics					04-GEO-APP1-182-m01
Module coordinator				Module offered by	
holder of the Professorship of Remote Sensing				Institute of Geography and Geology	
ECTS	Meth	od of grading	Only after succ. co	Only after succ. compl. of module(s)	
5	nume	rical grade			
Duration		Module level	Other prerequisite	Other prerequisites	
1 semester		graduate			
Contents					

Topics cover most aspects of remote sensing based assessment of Land Surface Dynamics. Topics such as snow cover dynamics, water body dynamics, forest cover and further vegetation dynamics, urbanization dynamics, coastal dynamics, or dynamics of geophysical parameters such as land surface temperature or selected indices will be addressed. In these contexts we look at opportunities arising from optical-, multi-spectral- and radar sensors, as well as thermal imagery. Data availability and access, as well as typical software tools for handling of multispectral data or time series analyses will be addressed as well.

Intended learning outcomes

Participants will gain a thorough and comprehensive overview and understanding of dynamic processes on the land surface that can be monitored using remote sensing imagery. Seminar papers or oral presentations will provide first experiences in scientific writing and presentation.

Courses (type, number of weekly contact hours, language — if other than German)

S (2)

Module taught in: English

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

- a) presentation (approx. 30 minutes) or
- b) preparing a poster (approx. 10 hours total) or
- c) term paper (15 pages)

Language of assessment: English or German (assessment will be held in English; in addition, the examiner may, where possible, decide to hold assessment in German)

Assessment offered: Once a year, summer semester

creditable for bonus

Allocation of places

Additional information

Workload

150 h

Teaching cycle

Referred to in LPO I (examination regulations for teaching-degree programmes)
