This module is aimed at students who are studying history as vertieft studiertes Fach (subject studied with a focus on the scientific discipline; teaching degree Gymnasium) or Didaktikfach (subject studied with a focus on teaching methodology; teaching degree Grundschule or Hauptschule). It explores the didactic, methodological, and media-related bases of history didactics both in a theory-based manner and in relation to the practical implementation in the history classroom. The module provides an overview and discusses selected examples.		
Intended learning outcomes		
Students gain an overview of fundamental topics, research approaches, models, media, and methods of history didactics and become familiar with standard references on history didactics. They develop the ability to select and employ appropriate research methods. Students independently read relevant literature and develop the ability to critically review publications on history didactics. They consolidate this knowledge in a selected area within history didactics and/or historical methods.
