

Module title		Abbreviation
Special topics in Archaeometry		o4-Geo-Arch6-o82-mo1
Module coordinator		Module offered by
holder of the Chair of Classical Archaeology		Chair of Classical Archaeology
ECTS	Method of grading	Only after succ. compl. of module(s)
10	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
<p>The first module component will cover in-depth typical materials (rocks, minerals, glass, pottery, metal) concerning their origin, composition, production, analytics and archaeological message of archaeological finds or monuments. In the second module component, students are given the possibility to implement practical studies with archaeological issues according to their own wish or to participate in respective work placements.</p>		
Intended learning outcomes		
<p>Students dispose over consolidated knowledge of materials, which are important for Archaeology. Under tutelage, they are able to independently conceive, implement and evaluate certain scientific studies with archaeological issue or acquire certain methods during a work placement.</p>		
Courses (type, number of weekly contact hours, language – if other than German)
