### Contents

The module serves to deepen the skills in "Special Physical Geography". Selected geofactors and applied problems are in the centre of courses. Part of the seminar will be a small project study concerning a selected issue of "special physical geography", which comprises the following process steps: Conception, data acquisition, data analysis and evaluation of explored issues.

### Intended learning outcomes

The module provides students with advanced knowledge of Special Physical Geography. The students gain a deeper insight into a selected topic and, hence, get the opportunity of orientation for their Bachelor theses and their further education or profession. Students achieve skills of the practical implementation of a specific physical-geographical issue. They also gain experience in independent an autonomous teamwork.
