Contents		
Introduction to basics of university teaching methodology and communication as well as consolidation of basics concerning the introduction to research methods and research process (scientific writing and presentation and moderation). The course includes the test of being a tutor for a chosen course of the Institute of Geography and Geology in the bachelor's degree courses.		
Intended learning outcomes		
Students achieve basic knowledge of university teaching and consolidated skills of scientific work. By implementing their expertise and methodological knowledge as well as their experiences as postgraduate students to work groups of undergraduates, they support their learning processes as well as reflection of group dynamics during the tutorial. During the individual design of role as tutor as well as due to constant feedback through students, the own professionalism grows.
