This module focuses on consolidating students' knowledge of medieval history and giving students an opportunity to independently apply this knowledge, employ the methods of the discipline, and use relevant forms of presentation. Discussing selected examples, the module consolidates students' previous knowledge of medieval history. Problems in medieval history are explored in both source-based and research-oriented courses. Problems in cultural, social, structural, and economic history, the history of society, and the history of mentalities as well as interdisciplinary problems are also considered.

Intended learning outcomes

Students are able to familiarise themselves with more complex issues, employing the methods of the discipline and taking into account relevant source material and secondary literature as well as the findings of related disciplines.
