<b>Contents</b>		
In generic manner, students are introduced to auxiliary sciences (e.g. epigraphy, numismatics, scientific analyses of material), relevant for Classical Archaeology, and their significance and methodological application.		
<b>Intended learning outcomes</b>		
Students are able to understand the methodology as well as application of a selected auxiliary science on the interpretation of archaeological auxiliary sciences. Moreover, they acquire an independent power of judgement in the light of subject-related methods and develop an application-orientated problem awareness.
