Contents		
The module consists of two courses that deal with alternating current topics. China's pace of development has been at a very high level for more than three decades, so that it is necessary to deal with current topics beyond the long-term fixed study specialisation. Therefore, this module offers the opportunity to take up new trends in China's society, politics or economy and to deal with them exemplarily in the form of two courses. The module is primarily aimed at students in the later stages of their studies.		
Intended learning outcomes		
The module provides students with the competence to deal with a current topic academically and to work on it with the help of appropriate sources. This ability is the basic requirement for successfully writing a Bachelor's thesis.
