<p>The module deals with two different epochs and/or schools of intellectual history of pre-modern or modern China in two consecutive semesters. The students get acquainted with the positions, arguments, terminology, and reference systems of the respective schools of intellectual history and epochs using original texts in translation. This provides an introduction to exemplary areas of Chinese intellectual history. Since the terminology is also dealt with in Chinese, the module is suitable for students from the third semester onwards.</p>		
Intended learning outcomes		
<p>Students are able to differentiate positions and arguments as well as terminologies in the covered epochs and schools and to independently classify them in argumentative contexts. They have basic skills of developing further epochs of intellectual history critically.</p>
