<p>This module will study the possibilities, methods and cognitive goals of analytical development of composed music. Basic knowledge of music theory will be applied to selected works of textual or instrumental music. Historical composition theory, traditional academic music theory and current music theory discourses will be presented as complementary foundations of musical analysis.</p>		
Intended learning outcomes		
<p>The student has basic knowledge of several methods of musical analysis and has applied an exemplary selection of these. He/she is able to analyse composed music of the European-Western tradition in an appropriate manner within the framework of a clearly defined task and to present the results.</p>
