Contents		
<p>This module provides students with a detailed overview of further selected material groups and additionally, deals with the preservation strategies for art and cultural heritage into the museum environment, so to speak with the task of preservation. This also applies for the preservation, presentation and the proper handling with museum objects (preventative conservation).</p>		
Intended learning outcomes		
<p>Students are able to understand and process objects of material culture independently. They are skilled in the proper handling with these objects in the museum and know about the perfect storage conditions as well as harmful influences. They are able to identify damaging factors and to minimise them, to identify and evaluate damages on objects and whether conservational measures should be taken.</p>
