Contents:
This module is designed to teach key skills in the principles of teaching as well as presentation skills. Participants develop an increased and intensified awareness of their own voice and of how their voice is perceived by others. They learn how to use body language that supports effective communication in an academic context. Comprising breathing and vocal exercises, the module teaches participants to keep a proper posture, use their voice effectively, and avoid voice strain. Practical exercises give participants the opportunity to receive constructive feedback on how they are perceived by others.

Intended learning outcomes:
Students have acquired methods and developed personal skills that allow them to influence how they are perceived by others. They are able to identify and analyse how their voice and body language is perceived by others and to develop their own strategies for improvement. Students are able to put into practice what they have learned and improve the quality of their own teaching. Having developed their self-awareness and their awareness of how they are perceived by others, students have enhanced their personal skills and are well prepared for taking on their role as active participants in the academic process.
