<b>Contents</b>		
<p>The module consists of at least two courses that provide an overview of the cultural and art historical development of Korea in the period from the 1st century BC to the 19th century. Against the background of significant developments in the field of the prevailing religions and ideologies (mythology, folk religion, Buddhism, Confucianism), important developments in painting, sculpture, architecture as well as arts and crafts are explored. In addition to the focus on individual areas (e.g. literary painting in the Choson dynasty, architecture in the Hanok style), links to other East Asian cultures are also shown.</p>		
<b>Intended learning outcomes</b>		
<p>Students are able to independently recognise, describe and critically differentiate the covered styles of the different epochs of Korean art. They are able to classify the different developments and objects of Korean cultural development in a well-founded manner and using Korean-language specialist terminology, as well as to critically assess the discourse of differentiating Korean cultural-historical positions from other East Asian cultures.</p>
