<b>Contents</b>		
<p>The module consists of at least two courses that give an overview of the historical development of Korea in the period from the 1st century BC to the present. For the pre-modern era, developments from a nomadic culture to settled agriculture and dynastic administration are dealt with, with special attention to relations with China and Japan. For the development from the 19th century onwards, colonial history, political factionalism, the economic boom after World War II, international relations and Korean soft power or the Korean diaspora are considered.</p>		
<b>Intended learning outcomes</b>		
<p>Students are able to independently classify significant events in Korean history and contemporary history chronologically and thematically. They are able to analyse historical phenomena comparatively and critically and to establish well-founded references to contemporary Korea. They acquire the ability to understand political structures and social processes and to assess their effect on the current situation in Korea. They have a basis for independent and in-depth familiarisation with further-reaching social issues.</p>
