Contents
This module is designed to teach key skills in academic writing. Trained student mentors instruct their peers in how to prepare and plan the process of writing an academic text and how to go about academic research. They also offer advice on writing foreign-language texts and help students practise writing a diverse range of texts that are relevant in their fields of study. Regular completion of actual writing tasks is a core component of this course. Along with peer feedback, students receive feedback and support from their student mentors to enable them to master the specific requirements set by their fields of study.

Intended learning outcomes
Students achieve an overview of academic writing techniques and essentials as well as citation methods and best academic practice. Having been provided with expert training in academic writing methods, they will be capable of writing any text in their field of study appropriately, with stylistic confidence and using the correct format.
