Contents

This module is designed to teach key skills when it comes to learning techniques and strategies as well as time management. Trained student mentors advise their peers on the use of specific organisational and memory aids in organising their time and exam preparation. Making practical use of the methods acquired is a core component of this course. Upon request, students receive support with their own learning tasks and feedback from their student mentors.

Intended learning outcomes

Students gain an overview of learning techniques and essentials as well as time management. They will be able to fulfil tasks in their field of study quickly, pertinently and to a deadline. This will enable them to prepare for exams proficiently and in good time.
