Contents

This module is designed to teach key skills in presentation, group leadership and information literacy. Particular emphasis is on students learning to present academic content accurately and appropriately as well as getting to grips with the technical features of relevant software and hardware. In addition to providing students with support on current degree programme-related presentation projects, trained student mentors offer workshops and mentoring sessions on presentation techniques as well as on suitable behaviour when giving a presentation and dealing with feedback. The practical use of the methods acquired is an essential part of the course.

Intended learning outcomes

By the end of the course, students will possess the following skills and key strengths to go about their studies successfully: essentials of group leadership and presentation, ability to apply established academic conduct methods, academic presentation practice and information literacy. They will also be able to effectively operate visual representation programs.
