1 semester	undergraduate	--	

Contents

Acquisition of one or more Indo-European languages or language families not covered in the other modules. (Anatolian, Celtic, Germanic, Tocharian, Armenian, Balto-Slavic, Albanian)
1. Overview of the texts and records of the respective language(s).
2. Classification of the language(s) within Indo-European and possible subgroups.
3. Synchronic and diachronic outline of the historical grammar (phonology, morphology, word formation, syntax) and vocabulary of the respective language(s).
4. Reading and linguistic interpretation of texts in the given language(s).

Intended learning outcomes

The student will demonstrate a basic competence in the linguistic analysis of the respective Indo-European language(s).

Courses (type, number of weekly contact hours, language — if other than German)
